## Know Your C9530-519 Certification Well:

The C9530-519 is best suitable for candidates who want to gain knowledge in the IBM IBM Cloud - Integration and Development. Before you start your C9530-519 preparation you may struggle to get all the crucial API Connect Solution Implementation materials like C9530-519 syllabus, sample questions, study guide.

But don't worry the C9530-519 PDF is here to help you prepare in a stress free manner.

The PDF is a combination of all your queries like-

- What is in the C9530-519 syllabus?
- How many questions are there in the C9530-519 exam?
- Which Practice test would help me to pass the C9530-519 exam at the first attempt?

Passing the C9530-519 exam makes you IBM Certified Solution Implementer - API Connect V5.0.5. Having the API Connect Solution Implementation certification opens multiple opportunities for you. You can grab a new job, get a higher salary or simply get recognition within your current organization.

## IBM C9530-519 API Connect Solution Implementation Certification Details:

Exam Name	IBM Certified Solution Implementer - API Connect V5.0.5
Exam Code	C9530-519
Exam Price	\$200 (USD)
Duration	90 mins
Number of Questions	72
Passing Score	69%
Schedule Exam	<a href="#"><b>Pearson VUE</b></a>
Sample Questions	<a href="#"><b>IBM API Connect Solution Implementation Sample Questions</b></a>
Practice Exam	<a href="#"><b>IBM C9530-519 Certification Practice Exam</b></a>

## C9530-519 Syllabus:

Topic	Details	Weights
Architectural Overview of IBM API Connect	<ul style="list-style-type: none"> <li>- Articulate the architectural requirements to support a given IBM API Connect topology.</li> <li>- Compare the different IBM API Connect deployment options.</li> <li>- Differentiate between the two types of organizations in IBM API Connect.</li> <li>- Demonstrate the various stages in the lifecycle of an API, including Create, Run, Manage, and Secure. The API lifecycle provides the foundation of an API strategy.</li> <li>- Distinguish between the various roles involved in the lifecycle of an API within IBM API Connect.</li> <li>- Implement the OpenAPI specification in IBM API Connect.</li> <li>- Identify typical use cases for IBM API Connect across industry.</li> </ul>	18%
Cloud Manager Role	<ul style="list-style-type: none"> <li>- Install and administer collectives and gateways.</li> <li>- Install and configure the IBM API Connect Cloud.</li> <li>- Install, configure, and customize the Developer Portal.</li> <li>- Manage the IBM API Connect Cloud using the REST interface.</li> <li>- Use the IBM API Connect Command Line Interface.</li> <li>- Backup and restore IBM API Connect configuration data.</li> <li>- Backup and restore APIs and Products.</li> <li>- Analyze logs to identify problems within the IBM API Connect Cloud.</li> <li>- Secure the IBM API Connect Cloud.</li> <li>- Integrate with an external user registry.</li> <li>- Configure the API Gateway extensions.</li> <li>- Manage IBM API Connect catalogs.</li> <li>- Manage the IBM API Connect Cloud.</li> </ul>	32%
API Developer Role	<ul style="list-style-type: none"> <li>- Design a LoopBack application using IBM API Connect.</li> <li>- Use the Unit Testing tools to test APIs.</li> <li>- Implement user-defined policies.</li> <li>- Utilize built-in policies.</li> <li>- Manage error handling.</li> <li>- Utilize API properties.</li> <li>- Create an API assembly.</li> <li>- Create and configure a SOAP API.</li> <li>- Create and configure a REST API.</li> <li>- Apply a security definition to an API.</li> </ul>	28%

Topic	Details	Weights
	- Use the IBM API Connect Developer Toolkit Command Line Interface.	
Product Manager Role	- Distinguish between the various lifecycle stages of APIs and Products. - Gain business insight from analytics information. - Show the relationship between Products and Plans and APIs. - Design Products and Plans. - Administer Consumer Access.	11%
App Developer Role	- Use the Developer Portal.	11%

**Answer: b**

**Question: 3**

What must the administrator download a local copy of to install the IBM API Connect Cloud?

- a) IBM API Connect OVA files
- b) IBM API Connect install executable
- c) IBM API Connect Software package
- d) Zipped VMware image of the IBM API Connect

**Answer: a**

**Question: 4**

The Cloud Management Console provides the capability to manage which of the following?

- a) Catalogs, Organizations, Users
- b) Management services, DataPower services, and Collectives
- c) Management services, DataPower services, or Micro Gateway
- d) Management services, DataPower services, and External Load Balancer

**Answer: b**

**Question: 5**

In IBM API Connect Cloud, there are multiple catalogs (Dev, Test, Prod). A developer has created a new, custom, user-defined policy that can be used across all catalogs.

What should an administrator do to ensure the new policy is deployed to the catalogs in the clusters?

- a) Import the policy for each catalog.
- b) Import the Policy to the primary IBM DataPower Gateway and allow it to fan out.
- c) Import the Policy into the Cloud Management Console so it can fan out the update to all servers and catalogs defined in the clusters.
- d) Run the Command Line Interface Toolkit command `apic config:set catalog=apiccatalog://mgmthost.com/policy/`.

**Answer: a**

**Question: 6**

An administrator can create a user-defined policy for the IBM DataPower Gateway by configuring a policy definition file and its implementation. What is the format of the policy definition file?

- a) XML
- b) JSON
- c) YAML
- d) Swagger

**Answer: c****Question: 7**

Which option best describes the capabilities of the built-in LoopBack in-memory connector?

- a) Caching
- b) Mirrored Disks
- c) Clustered environment
- d) CRUD (Create, Read, Update, Delete) operations

**Answer: d****Question: 8**

An administrator wants to publish a new API for an application developer. In what must the API be included to make it available to the application developer?

- a) Plan
- b) Product
- c) Organization
- d) Developer Portal

**Answer: b**

**Question: 9**

Developer Portal REST APIs are used to gain access to the content in which of the following?

- a) Catalog
- b) API Gateway
- c) Microservices
- d) Cloud Manager

**Answer: a**

**Question: 10**

If Syslog messages are not being received in the collector, which log file is to be examined for messages related to the connection state?

- a) syslog
- b) cmc.out
- c) webhook.log
- d) site\_action.log

**Answer: b**

## Study Guide to Crack IBM API Connect Solution Implementation C9530-519 Exam:

- Getting details of the C9530-519 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the C9530-519 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the IBM provided training for C9530-519 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the C9530-519 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on C9530-519 practice tests is must. Continuous practice will make you an expert in all syllabus areas.

## Reliable Online Practice Test for C9530-519 Certification

Make EduSum.com your best friend during your IBM API Connect v. 5.0.5 Solution Implementation exam preparation. We provide authentic practice tests for the C9530-519 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual C9530-519 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the C9530-519 exam.
