## Know Your 1Z0-632 Certification Well:

The 1Z0-632 is best suitable for candidates who want to gain knowledge in the Oracle PeopleTools - Tools and Technology. Before you start your 1Z0-632 preparation you may struggle to get all the crucial PeopleSoft PeopleTools Implementation Essentials materials like 1Z0-632 syllabus, sample questions, study guide.

But don't worry the 1Z0-632 PDF is here to help you prepare in a stress free manner.

The PDF is a combination of all your queries like-

- What is in the 1Z0-632 syllabus?
- How many questions are there in the 1Z0-632 exam?
- Which Practice test would help me to pass the 1Z0-632 exam at the first attempt?

Passing the 1Z0-632 exam makes you Oracle PeopleSoft PeopleTools 8.5x Certified Implementation Specialist. Having the PeopleSoft PeopleTools Implementation Essentials certification opens multiple opportunities for you. You can grab a new job, get a higher salary or simply get recognition within your current organization.

## 1Z0-632 Syllabus:

PeopleSoft Architecture	- Describe the structure of PeopleSoft databases
Eight Steps of PeopleSoft Application Development	<ul style="list-style-type: none"> <li>- Describe the steps of PeopleSoft application development</li> <li>- Create and manage field definitions</li> <li>- Create and manage translate values</li> <li>- Create and manage record definitions</li> <li>- Build and maintain database tables</li> <li>- Create and manage classic page definitions</li> <li>- Create and manage classic component definitions</li> <li>- Register classic component definitions</li> <li>- Test and troubleshoot classic applications</li> </ul>
Additional Application Development Tasks	<ul style="list-style-type: none"> <li>- Explain validation types in PeopleSoft applications</li> <li>- Explain the impact of changing definition properties on an application</li> <li>- Manage the portal registry</li> </ul>
Fluid User Interface Applications	<ul style="list-style-type: none"> <li>- Describe the characteristics of PeopleSoft fluid applications</li> <li>- Create and personalize personal fluid homepages</li> <li>- Create and manage fluid page definitions</li> <li>- Set properties for fluid pages and controls</li> <li>- Create, register, and manage fluid component definitions</li> <li>- Test and troubleshoot fluid applications</li> </ul>
Advanced PeopleSoft Application Design	<ul style="list-style-type: none"> <li>- Create and maintain PeopleSoft views</li> <li>- Create and manage component search records</li> <li>- Create parent-child relationships to enforce referential integrity</li> <li>- Create and maintain subrecords</li> <li>- Create and maintain subpages</li> <li>- Create, maintain, and use message catalog entries</li> <li>- Override and extend delivered styles in fluid applications</li> </ul>
Component Processor and PeopleCode Events	<ul style="list-style-type: none"> <li>- Describe the component processor flow</li> <li>- Identify PeopleCode events</li> <li>- Match PeopleCode programs to the correct events</li> </ul>

PeopleCode Programs	<ul style="list-style-type: none"><li>- Write and use PeopleCode statements</li><li>- Create user-defined variables</li><li>- Use system variables</li><li>- Incorporate derived/work fields into PeopleSoft applications</li><li>- Use PeopleCode functions</li><li>- Write PeopleCode programs to execute SQL</li></ul>
Object-Oriented PeopleCode	<ul style="list-style-type: none"><li>- Write object-oriented PeopleCode programs</li><li>- Instantiate objects of the component buffer classes</li><li>- Write PeopleCode programs to traverse multiple occurs levels in the component buffer</li><li>- Describe application classes</li><li>- Create and maintain application class programs</li></ul>

## Oracle 1Z0-632 Sample Questions:

### Question: 1

You have been asked to modify the search record for the instructor table to include course type. What should you select on the Use tab of the record field properties for the COURSE\_TYPE field?

- a) List Box Item
- b) Duplicate Order Key
- c) Alternate Search Key
- d) Key
- e) Search Key

**Answer: e**

### Question: 2

Select three steps that comprise the user interface phase of PeopleSoft application development?

(Choose three.)

- a) Register components
- b) Define fields
- c) Define pages
- d) Define components
- e) Define records
- f) Build records

**Answer: a, c, d**

**Question: 3**

Assume that you open a PeopleSoft application record definition using Application Designer. Which two of the following statements are false?

(Choose two.)

- a) In Application Designer, with a record definition open, you can insert additional fields
- b) Any changes made to the record definition in Application Designer are stored in a PeopleTools table as application metadata
- c) In Application Designer, with a record definition open, you can view transactional application data, such as inventory items provided by a vendor
- d) In Application Designer, with a record definition open, you can add or update transactional application data, such as adding a new inventory item
- e) In Application Designer, with a record definition open, you can modify the key structure of the record definition
- f) In Application Designer, with a record definition open, you can set a record field to be a required field for which an end user must specify a value when adding a new row of transactional data

**Answer: b, f**

**Question: 4**

Instructors have complained that they do not have access to a newly registered component and page. The Instructor role that includes the Instructor permission list already exists; both are available for your use.

Select the two correct methods that add access for just this user group.

(Choose two.)

- a) Modify the content reference (CREF) definition in the portal registry and enable the Author Access option
- b) Re-run the Registration Wizard. Select the option to modify only a permission list, and add the Instructor permission list to this component
- c) Modify the CREF definition in the portal registry and add the Instructor role
- d) Modify the Instructor permission list definition and add access to the new component and page
- e) Modify the CREF definition in the portal registry and add the Instructor permission list
- f) Modify the CREF definition in the portal registry and enable the Public Access option

**Answer: b, d**

**Question: 5**

Choose the correct statement about translate values appearing in the drop-down list on a page.

- a) The translate values must be active and have an effective date earlier than the effective date on the prompting table
- b) The translate values must be active and you must enter a short name when adding the translate value
- c) The translate values must be active and not contain any special characters
- d) The translate values must be active and all values must have the same length
- e) The translate values must be active and have an effective date later than the effective date on the prompting table

**Answer: a**

**Question: 6**

An end user saves the data after making a change to their personal address, and the system updates the table for that page.

In this case, that personal address information is also stored in a table used to generate reports. Upon saving the address, the system also updates the equivalent information stored in the reporting table.

What form of maintaining referential integrity has been implemented in this scenario?

- a) Parent-child relationship
- b) Occurs level
- c) Prompt table edit
- d) PeopleCode running a SQLExec statement
- e) Expert entry

**Answer: c**

**Question: 7**

You are asked to create a new field definition with a field label that includes a line break for Curriculum Developer. How should you enter the label?

- a) Curriculum/Developer
- b) Curriculum\Developer
- c) Curriculum/nDeveloper
- d) Curriculum<br>Developer

**Answer: d**

**Question: 8**

When you are modifying, customizing, or configuring PeopleSoft application definitions using Application Designer, which two statements are true regarding the impact on other application elements?

(Choose two.)

- a) Running an alter table process in Application Designer is required only during major upgrades, not after small changes to a single record definition
- b) PeopleTools provides utilities to help you determine relationships between application definitions, such as PeopleTools cross-reference reports and the Find Definition References option
- c) If you modify field definition properties or record definition properties, the PeopleTools system insanity and automatically synchronizes the definition changes with the underlying SQL database table
- d) Changing a single field property, such as the field name or type, typically has no effect on other definitions such as records or pages
- e) If you alter a table, you must rebuild any views that reference the altered table

**Answer: b, e**

**Question: 9**

Identify three true statements describing PeopleTools tables.

(Choose three.)

- a) PeopleTools tables can be updated equally using PeopleTools, such as Application Designer, or the SQL editing tool for your database platform
- b) PeopleTools tables use the naming convention of having the prefix PD\*, as in PSRECDEFN
- c) PeopleTools tables store metadata that defines the elements of a PeopleSoft application
- d) PeopleTools tables contain the same content, regardless of the PeopleSoft application installed on the database
- e) PeopleTools tables have a consistent structure, regardless of the PeopleSoft application installed on the database
- f) PeopleTools tables are empty until the implementation team has loaded the application's transactional data

**Answer: a, b, c**

**Question: 10**

When testing a fluid page, one of your colleagues says that the page suddenly is not rendering as expected. He believes he may have accidentally deleted a group box on the page. Using the developer tools of your browser, you inspect the HTML elements.

Which vital structural element of a fluid page must still exist in order for the page to render properly?

- a) `<div class="ps_anchor"... </div>`
- b) `<div class="ps_main"... </div>`
- c) `<div class="ps_box-pagetabs"... </div>`
- d) `<div class="ps_pspagecontainer_srch" ... </div>`
- e) `<div class="ps_box-group psc_layout psc_apps_content"... </div>`

**Answer: e**

## Study Guide to Crack Oracle PeopleSoft PeopleTools Implementation Essentials 1Z0-632 Exam:

- Getting details of the 1Z0-632 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the 1Z0-632 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the Oracle provided training for 1Z0-632 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the 1Z0-632 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on 1Z0-632 practice tests is must. Continuous practice will make you an expert in all syllabus areas.

## Reliable Online Practice Test for 1Z0-632 Certification

Make DBExam.com your best friend during your PeopleSoft PeopleTools 8.5x Implementation Essentials exam preparation. We provide authentic practice tests for the 1Z0-632 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual 1Z0-632 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the 1Z0-632 exam.
