Know Your 1Y0-341 Certification Well:

The 1Y0-341 is best suitable for candidates who want to gain knowledge in the Citrix Networking. Before you start your 1Y0-341 preparation you may struggle to get all the crucial CCP-AppDS materials like 1Y0-341 syllabus, sample questions, study guide.

But don't worry the 1Y0-341 PDF is here to help you prepare in a stress free manner.

The PDF is a combination of all your queries like-

- What is in the 1Y0-341 syllabus?
- How many questions are there in the 1Y0-341 exam?
- Which Practice test would help me to pass the 1Y0-341 exam at the first attempt?

Passing the 1Y0-341 exam makes you Citrix Certified Professional - App Delivery and Security (CCP-AppDS). Having the CCP-AppDS certification opens multiple opportunities for you. You can grab a new job, get a higher salary or simply get recognition within your current organization.

Citrix 1Y0-341 CCP-AppDS Certification Details:

Exam Name	Citrix ADC Advanced Topics - Security, Management and Optimization (CCP-AppDS)
Exam Code	1Y0-341
Exam Price	\$300 USD
Duration	75 minutes
Number of Questions	69
Passing Score	66%
Recommended Training / Books	CNS-320: Citrix ADC 12.x Advanced Concepts - Security, Management and Optimization
Schedule Exam	PEARSON VUE
Sample Questions	Citrix 1Y0-341 Sample Questions
Recommended Practice	Citrix Certified Professional - App Delivery and Security (CCP-AppDS) Practice Test

1Y0-341 Syllabus:

Section	Objectives
Introducing Citrix Web App Firewall	<ul style="list-style-type: none"> - Determine how to audit for PCI-DSS compliance. - Determine the appropriate methodology to use for a given scenario. - Determine the functionality of Citrix Web App Firewall, given a scenario.
Citrix Web App Firewall Profiles and Policies	<ul style="list-style-type: none"> - Determine how to configure Citrix Web App Firewall Policies. - Determine how to create or implement (binding) Citrix Web App Firewall profiles. - Determine how to configure Citrix Web App Firewall learning for a given scenario. - Determine how to analyze Citrix Web App Firewall settings.
Implementing Citrix Web App Firewall Protections	<ul style="list-style-type: none"> - Determine how to configure security checks to meet given requirements. - Determine how to analyze data flow to meet given requirements. - Determine how to configure rules and adaptive learning to meet the needs of a given environment. - Determine how to create or modify signature rules based on given requirements. - Determine how to configure the various top-level protections based on the needs of an environment.
Additional Citrix Web App Firewall Protections	<ul style="list-style-type: none"> - Determine how to configure cookie consistency checks for an environment. - Determine how to configure advanced form protection checks for an environment. - Determine how to appropriately protect URLs based on a description of an environment. - Determine how to appropriately protect the data based on a description of an environment.
Monitoring and Troubleshooting Citrix Web App Firewall	<ul style="list-style-type: none"> - Determine how to deploy Citrix Web App Firewall for a given environment. - Determine how Citrix Web App Firewall interacts with applications in a given environment. - Determine how to resolve Citrix Web App Firewall configuration issues given a description of an issue. - Determine how to Implement logging and reporting. - Determine how to customize error pages for a given environment. - Identify troubleshooting methods for Citrix Web App Firewall.
Citrix ADC Security and Filtering	<ul style="list-style-type: none"> - Determine how to implement HTTP Callout. - Determine how to implement IP rate-limiting. - Determine how to implement IP reputation. - Determine how to Implement AppQoE.
Authentication using Security Assertion Markup Language (SAML)	<ul style="list-style-type: none"> - Determine how to configure SAML based on a given scenario.
Authentication using OAuth and OpenID	<ul style="list-style-type: none"> - Determine how to configure OAuth and OpenID based on a description of a Citrix ADC environment.

Section	Objectives
	<ul style="list-style-type: none"> - Determine how to configure multi-factor authentication in a Citrix ADC environment based on a given scenario.
Introduction and Configuration of Citrix Application Delivery Management	<ul style="list-style-type: none"> - Determine which features of Citrix Application Delivery Management should be used based on a description of an environment. - Determine what is needed for the Citrix ADM Service. - Determine how to deploy Citrix Application Delivery Management based on a given scenario. - Determine how to perform the initial configuration of Citrix Application Delivery Management. - Determine how to create additional instances of Citrix Application Delivery Management.
Managing and Monitoring Citrix ADC Instances	<ul style="list-style-type: none"> - Determine how to manage multiple instances in a single Citrix Application Delivery Management deployment with Instance Management. - Determine how to manage the aspects of Authentication and Authorization on Citrix ADM. - Identify what data is captured and utilized with Analytics and Automation. - Determine how to configure and install SSL Certificates on Citrix Application Delivery Management. - Determine how to monitor user connections using dashboards.
Managing Citrix ADC Configurations	<ul style="list-style-type: none"> - Determine how to manage applications in a Citrix ADC environment. - Determine how to create, manage, and configure StyleBooks. - Determine how to complete configuration jobs based on a scenario.
Integrated Caching	<ul style="list-style-type: none"> - Determine when to use static or dynamic content requests. - Determine how to configure cache policies. - Determine which content group settings to configure based on a given scenario.
Front End Optimization	<ul style="list-style-type: none"> - Determine how to utilize front-end optimizations based on a given scenario.
Performance Tuning and Other Optimizations	<ul style="list-style-type: none"> - Determine how the Citrix ADC system uses HTTP connections based on a given description. - Determine how to Tune HTTP and TCP behaviors in Connection Profiles.

Citrix 1Y0-341 Sample Questions:

Question: 1

What can a Citrix Engineer do to decrease browser load times by increasing the number of parallel connections to the resource?

- a) Configure Domain Sharding.
- b) Add more web servers.
- c) Block JavaScript on client browsers.
- d) Do NOT allow HTML websites.

Answer: a

Question: 2

A Citrix Engineer has enabled transform action in SQL injection check. What would the following parameter be transformed into?

Citrix; OR '1' =1

- a) Citrix\ OR "1"="1
- b) Citrix OR "1"="1
- c) Citrix OR "1"=/1
- d) Citrix/ OR "1"="1

Answer: b

Question: 3

Which option matches the following regular expression?

r.n 10\.10\.0\..

- a) run 10.100.10.99
- b) run 10.10.0.9
- c) RUN 10.10.0.9
- d) r.n 10.10.10.99

Answer: b

Question: 4

Which security option falls under the Negative Security Model for Citrix Application Firewall?

- a) Start URL
- b) HTML Cross-Site Scripting
- c) Content-type
- d) Signature

Answer: d

Question: 5

Which two settings can be used when creating a Cache Content group?

(Choose two.)

- a) Remove response cookies
- b) Set Lazy DNS resolution
- c) Expire cookies
- d) Use DNS Query
- e) Use browser settings

Answer: a, b

Question: 6

Which three options can be used to specify the destination of an HTTP Callout?

(Choose three.)

- a) Load balancing Virtual server
- b) Global server load balancing Virtual server
- c) Citrix ADC Gateway Virtual server
- d) Content switching Virtual server
- e) Cache redirection Virtual server

Answer: a, d, e

Question: 7

A Citrix Engineer needs to create an Citrix Web App Firewall Profile. Which statement is applicable when using Signatures for creating an Citrix Web App Firewall Profile?

- a) No Signatures are bound to the profile.
- b) No Custom Signatures can be used.
- c) Only external format Signatures can be used.
- d) The Default Signatures are bound to the profile.

Answer: a

Question: 8

Which logging does an engineer need to enable as a pre -requisite to geolocation - based logging?

- a) CEF (Common Even Format)
- b) Syslog
- c) Audit
- d) AppFlow

Answer: a

Question: 9

Which reason can cause fail over in a Citrix ADC Application Delivery Management High Availability pair?

- a) A secondary server loses connectivity in the LAN.
- b) The engineer manually forces the secondary server to shut down.
- c) A primary server encounters a critical software issue.
- d) A primary server does NOT receive the SNMP traps from the instances connected.

Answer: c

Question: 10

Which two response headers are added by Application Firewall?

(Choose two.)

- a) Transfer-Encoding
- b) Accept-Language
- c) Accept-Encoding
- d) Set-Cookie
- e) Range

Answer: a, d

Study Guide to Crack Citrix CCP-AppDS 1Y0-341 Exam:

- Getting details of the 1Y0-341 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the 1Y0-341 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the Citrix provided training for 1Y0-341 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the 1Y0-341 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on 1Y0-341 practice tests is must. Continuous practice will make you an expert in all syllabus areas.

Reliable Online Practice Test for 1Y0-341 Certification

Make VMExam.com your best friend during your Citrix ADC Advanced Topics - Security, Management and Optimization exam preparation. We provide authentic practice tests for the 1Y0-341 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual 1Y0-341 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the 1Y0-341 exam.
