## Know Your 1D0-61C Certification Well:

The 1D0-61C is best suitable for candidates who want to gain knowledge in the CIW Web Foundations. Before you start your 1D0-61C preparation you may struggle to get all the crucial Network Technology Associate materials like 1D0-61C syllabus, sample questions, study guide.

But don't worry the 1D0-61C PDF is here to help you prepare in a stress free manner.

The PDF is a combination of all your queries like-

- What is in the 1D0-61C syllabus?
- How many questions are there in the 1D0-61C exam?
- Which Practice test would help me to pass the 1D0-61C exam at the first attempt?

Passing the 1D0-61C exam makes you CIW Network Technology Associate. Having the Network Technology Associate certification opens multiple opportunities for you. You can grab a new job, get a higher salary or simply get recognition within your current organization.

## CIW 1D0-61C Network Technology Associate Certification Details:

Exam Name	CIW Network Technology Associate
Exam Code	1D0-61C
Exam Price	\$150 (USD)
Duration	30 mins
Number of Questions	30
Passing Score	63.33%
Schedule Exam	<a href="#"><b>Pearson VUE</b></a>
Sample Questions	<a href="#"><b>CIW Network Technology Associate Sample Questions</b></a>
Practice Exam	<a href="#"><b>CIW 1D0-61C Certification Practice Exam</b></a>

## 1D0-61C Syllabus:

<b>Details</b>
- Demonstrate knowledge of basic data communications components, and demonstrate technical knowledge of the Internet.
- Identify the role of networking hardware, and configure common hardware for operation.
- Identify the relationship between IP addresses and domain names, including assignment of IP addresses within a subnet.
- Identify the functions and components of servers commonly used on the Internet.
- Identify common Internet security and availability issues, including user-level and enterprise-level concerns.
- Identify common performance issues affecting Internet clients, including analysis, diagnosis.
- Perform basic hardware and system maintenance for network-aware systems.
- Manage fundamental elements of modern network-based client operating systems.
- Configure and troubleshoot wireless networks.
- Demonstrate understanding of virtualization.
- Explain concepts involving personal privacy protection on the Internet.

## CIW 1D0-61C Sample Questions:

Question: 1

What is the distinguishing difference between a LAN and WAN?

- a) A LAN is a group of networked computers within a confined geographic area.
- b) A WAN is a group of networked computers within a confined geographic area.
- c) A LAN typically provides slower network connection speeds than a WAN.
- d) A WAN is commonly used for intra-office communication.

**Answer: a**

**Question: 2**

You want to restrict host access to a wireless access point. What is the best way to do this?

- a) Enable MAC address filtering at each host.
- b) Log in to the access point and configure features, such as changing the SSID.
- c) Change the Direct Sequence Spread Spectrum (DSSS) signal at both the access point and each hosts NIC.
- d) Install software on the host you want to limit, then use a Web browser to log in to the host and configure it with the necessary settings to use the access point.

**Answer: b**

**Question: 3**

Which of the following devices is necessary to create a WAN?

- a) A router
- b) A bridge
- c) A Channel Service Unit/Data Service Unit (CSU/DSU)
- d) A hub

**Answer: a**

**Question: 4**

Why would you connect a wireless network to a standard wired LAN?

- a) To take advantage of the ad-hoc and infrastructure networking modes
- b) To access services such as the Internet, company intranet and company e-mail
- c) To take advantage of WPA2 encryption and MAC address filtering
- d) To gain access to the Service Set Identifier (SSID) and Basic SSID (BSSID) functions

**Answer: b**

**Question: 5**

When comparing IPv4 to IPv6, which of the following is an advantage of the IPv6 network addressing scheme?

- a) Larger address space
- b) Shorter address space
- c) High dependence on network routers
- d) Fast and unencrypted network transmissions

**Answer: a**

**Question: 6**

Which of the following is generally a component of a BYOD policy?

- a) Scope of control
- b) Insurance on devices
- c) Maintenance provision
- d) Device replacement or upgrade

**Answer: a**

**Question: 7**

To restore a backup file on a Windows-based computer, you:

- a) Use the Disk Management utility in the Microsoft Management Console (MMC).
- b) Use the Backup and Restore utility in the Control Panel.
- c) Use Device Manager in the Control Panel.
- d) Extract the backed-up file.

**Answer: b**

**Question: 8**

Which of the following is a drawback to using Wired Equivalent Privacy (WEP)?

- a) Wireless network overhead is excessive.
- b) Symmetric-key encryption is susceptible to cracking.
- c) The number of devices that can communicate using WEP is limited.
- d) Encryption and decryption speeds are slower compared to other protocols.

**Answer: b**

**Question: 9**

The Windows Device Manager is a tool that enables you to perform a variety of tasks, including:

- a) Map to a printer.
- b) Ping an IP address.
- c) Defragment a hard drive.
- d) Change a resource assignment.

**Answer: d**

**Question: 10**

ABC Company develops its own database applications. ABC is considering migrating to cloud services to accommodate the company's growth. What strategy should ABC use to ensure continuous data protection if it begins using cloud services?

- a) Cloud-only solution
- b) Regional systems solution
- c) Location systems solution
- d) Multiple cloud-service providers

**Answer: c**

## Study Guide to Crack CIW Network Technology

### Associate 1D0-61C Exam:

- Getting details of the 1D0-61C syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the 1D0-61C exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the CIW provided training for 1D0-61C exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the 1D0-61C sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on 1D0-61C practice tests is must. Continuous practice will make you an expert in all syllabus areas.

## Reliable Online Practice Test for 1D0-61C Certification

Make EduSum.com your best friend during your CIW Network Technology Associate exam preparation. We provide authentic practice tests for the 1D0-61C exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual 1D0-61C exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the 1D0-61C exam.
