## Microsoft MB-330 Sample Questions:

### Question: 1

A company creates several item costing versions. All new and existing items have costs associated with them. After applying the costs, the company notices the activation date has not been updated. You need to update the items to the current date for activation. What should you do?

- a) Set the item cost record status to Active
- b) Set the from date to today and leave the item cost record status at Pending
- c) Set the item cost record status to Pending
- d) Set the cost price and date of price on the released product

**Answer: a**

**Question: 2**

A company manufactures and sells speaker boxes. The speaker boxes can be silver or black with a basic or upgraded wiring harness assembly. The speaker box must be created in the item master so that the variables for colors and harness type can be assigned at order entry. You need to create a new item that supports multiple variables.

What should you do?

- a) Create a new product. Select predefined variant as the configuration technology.
- b) Create a new product master. Select constraint-based configuration as the configuration technology.
- c) Create a new product. Select constraint-based configuration as the configuration technology.
- d) Create a new product master. Select predefined variant as the configuration technology.

**Answer: d**

**Question: 3**

A customer acquires a new portable home radio from your company and is unhappy with the product. The customer wants to return it, so your sales department has to create a return order for the product.

The policy dictates that:

- The customer has to return the product within seven days after the return order is created.
- The reason why the customer wants to return the product should be registered.

You need to determine which information should be included in the return order. Which three actions should you perform? Each correct answer presents part of the solution.

- a) Enter the return material authorization (RMA) number.
- b) Enter the return reason code.
- c) Enter the customer account.
- d) Enter the deadline as the current date plus seven days in the New Return Order dialog.
- e) Enter a value of 7 for the Sales default values period of validity.
- f) Enter the site/warehouse.

**Answer: b, c, f**

**Question: 4**

A company has several warehouse locations. The company acquires a new warehouse. You must design a new warehouse process workflow for the new warehouse. You need to configure the workflow. Which three options should you configure?

Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- a) work pools
- b) cluster picking
- c) outbound wave processing
- d) work templates
- e) wave templates

**Answer: a, d, e**

**Question: 5**

A company creates a new bill of materials (BOMs). The company subcontracts with a vendor to manufacture one component for the BOM. You need to ensure that only the production manager is permitted to approve BOMs.

Which two actions should you perform?

Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- a) Assign security permissions to approve the BOM version but not the related BOM.
- b) Assign security permissions to the user for the approval form.
- c) Assign security permissions to the Vendor portal.
- d) Set up the approver as a vendor.
- e) Set up the approver as an employee.

**Answer: b, e**

**Question: 6**

Reference Scenario: [click here](#)

- a) You need to configure the system to support the pottery line. What should you do first?
- a) Set up a new product with product configuration.
- b) Create a new product with tracking dimensions.
- c) Create a new product master with pre-defined product variants.
- d) Create a new product with storage dimensions.

**Answer: c**

**Question: 7**

Reference Scenario: [click here](#)

You use Dynamics 365 Supply Chain Management to manage inventory. You need to adjust inventory and override the current item posting setup. Which journal type should you use?

- a) inventory adjustment
- b) inventory transfer
- c) movement
- d) item arrival

**Answer: c**

**Question: 8**

Reference Scenario: [click here](#)

You need to identify the cause for the inventory issue reported by customer service representatives. What is the root cause?

- a) Run inventory close process
- b) Ordered reserved box should be checked, this will disable quantities.
- c) Turn on automatic reservation.
- d) Ordered reserved quantity is due to marking.
- e) Turn off automatic reservation.

**Answer: d**

**Question: 9**

Reference Scenario: [click here](#)

You need to segregate inventory for the brakes that are in inventory. Which two actions should you perform?

Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- a) Assign a blocked status to the inbound purchase order from VendorA.
- b) Create a disposition code.
- c) Set default inventory status on the item.
- d) Assign an item filter code.
- e) Assign a blocked status to the inbound purchase order from VendorB.

**Answer: a, d**

**Question: 10**

Reference Scenario: [click here](#)

You need to configure the system to support the inventory costing requirement. Which two actions should you perform?

Each answer represents a complete solution. NOTE: Each correct selection is worth one point.

- a) one default item group for all items
- b) one item group each for perfume, ceramicware, and other goods
- c) one FIFO item model group and one Standard item model group
- d) one FIFO item group
- e) one financial dimension for each item group

**Answer: b, c**

## Study Guide to Crack Microsoft Supply Chain Management MB-330 Exam:

- Getting details of the MB-330 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the MB-330 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the Microsoft provided training for MB-330 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the MB-330 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on MB-330 practice tests is must. Continuous practice will make you an expert in all syllabus areas.

## Reliable Online Practice Test for MB-330 Certification

Make EduSum.com your best friend during your Microsoft Dynamics 365 Supply Chain Management exam preparation. We provide authentic practice tests for the MB-330 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual MB-330 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the MB-330 exam.
