Know Your 1Z0-448 Certification Well:

The 1Z0-448 is best suitable for candidates who want to gain knowledge in the Oracle Data Integrator (ODI). Before you start your 1Z0-448 preparation you may struggle to get all the crucial Data Integrator Essentials materials like 1Z0-448 syllabus, sample questions, study guide.

But don't worry the 1Z0-448 PDF is here to help you prepare in a stress free manner.

The PDF is a combination of all your queries like-

- What is in the 1Z0-448 syllabus?
- How many questions are there in the 1Z0-448 exam?
- Which Practice test would help me to pass the 1Z0-448 exam at the first attempt?

Passing the 1Z0-448 exam makes you Oracle Data Integrator 12c Certified Implementation Specialist. Having the Data Integrator Essentials certification opens multiple opportunities for you. You can grab a new job, get a higher salary or simply get recognition within your current organization.

Oracle 1Z0-448 Data Integrator Essentials Certification Details:

Exam Name	Oracle Data Integrator 12c Essentials
Exam Code	1Z0-448
Exam Price	USD \$245 (Pricing may vary by country or by localized currency)
Duration	120 minutes
Number of Questions	79
Passing Score	71%
Format	Multiple Choice Questions (MCQ)
Recommended Training	Oracle Data Integrator 12c: Integration and Administration Oracle Data Integrator 12c: Advanced Integration and Development

	<u>Oracle Data Integrator 12c Certified Implementation Specialist</u> <u>Oracle Data Integration Learning Subscription</u> <u>Unlimited Learning Subscription - All Technology</u>
Schedule Exam	<u>Pearson VUE</u>
Sample Questions	<u>Oracle Data Integrator 12c Certified Implementation Specialist (OCS)</u>
Recommended Practice	<u>1Z0-448 Online Practice Exam</u>

1Z0-448 Syllabus:

Introduction to Oracle Data Integrator (ODI)	<ul style="list-style-type: none"> - Describe the benefits of ODI and its typical use cases - Describe the ODI components and their uses
Architecture Overview	<ul style="list-style-type: none"> - Install and configure the physical and logical architecture - Explain Fusion Middleware Components including Upgrade Assistant, Repository Creation Utility, and Java Enterprise Edition (JEE) Components - Explain the differences between the different ODI Agent types
ODI Models and Databases	<ul style="list-style-type: none"> - Create ODI databases - Create and organize ODI models - Use reverse engineering metadata - Explain ODI constraints - Configure auditing
Project Development	<ul style="list-style-type: none"> - Create a project within ODI - Explain an ODI mapping - Describe the concepts of expressions, components as well as the concepts of staging area and execution location - Use mapping components and expressions - Configure the physical design of a mapping (knowledge modules, staging area and execution location) - Create and execute an ODI mapping - Modify and develop knowledge modules - Describe run time - Monitor the execution of interfaces - Troubleshoot and prevent run-time errors in mappings - Describe the use of reusable Mappings
Managing Execution	<ul style="list-style-type: none"> - Use ODI packages to create a complete workflow - Use variables in packages (refresh, startup parameters). - Create package steps of different types - Execute and monitor a package - Use complex workflows in ODI packages, including branches and loops

	<ul style="list-style-type: none"> - Design a sequence of hierarchical steps in a load plan - Compare packages and load plans - Manage exceptions with load plans - Configure load plans to restart child sessions
Integrating OGG with ODI	<ul style="list-style-type: none"> - Describe the purpose of Changed Data Capture (CDC) with ODI - Explain ODI CDC with GoldenGate - this is learner level...please update - Perform ODI journalizing - Interpret and troubleshoot the results of CDC
Doing more with ODI	<ul style="list-style-type: none"> - Configure the ODI Software Development Kit (SDK) - Install the Web-based components of ODI - Explain how ODI is used with Big Data technologies

Oracle 1Z0-448 Sample Questions:

Question: 1

You are using a customized reverse knowledge module. You want the execution to be performed in only the development data environment. Which statement is true?
(Choose the best answer.)

- a) The execution should be done only on the development data environment, as long as the other environment is a mirrored copy.
- b) Only the production environment can be used.
- c) All environments linked to a logical schema can be used to reverse-engineer table structures.
- d) Only a Java engine intermediate environment can be processed.

Answer: c

Question: 2

How do you reuse a configuration of Odi Send Mail across multiple packages?
(Choose the best answer.)

- a) Add a sub-model to a package, set the Sub-model step to Journalizing Sub-model, and select the Extend Window and Lock Subscriber check boxes.
- b) Add an OdiSendMail step to a knowledge module.
- c) Duplicate the OdiSendMail step into multiple packages.
- d) Create a procedure with a step that uses Odi Send Mail and add this procedure into multiple packages.

Answer: d

Question: 3

Identify two constraints that can be used to ensure uniqueness in ODI.

(Choose two.)

- a) conditions
- b) foreign keys
- c) primary keys
- d) alternate keys
- e) not null

Answer: c, d

Question: 4

You are a project developer using ODI and want to consolidate your own local metadata repositories. Identify the true statement.

(Choose the best answer.)

- a) You must consolidate your own local metadata repositories. The local metadata must be transmitted via ftp and synchronized with a dedicated proprietary engine, creating a common metadata model for all the developers.
- b) You must consolidate your own local metadata repositories. You have to invoke a dedicated web service to synchronize the metadata by using Oracle Service Bus.
- c) You need not consolidate your own local metadata repositories, because the ODI proprietary metadata server allows all developers to share the common metadata of a specific project.
- d) You need not consolidate your own local metadata repositories, because ODI uses a centralized relational metadata repository that all the developers share.

Answer: d

Question: 5

You need to deploy ODI JEE Components on WebLogic Server. Where should you deploy them?

(Choose the best answer.)

- a) on the Coherence Server
- b) on the Administration Server
- c) on the Node Manager
- d) on the Managed Server

Answer: d

Question: 6

The source and target data stores are located on the same data server. Which statement is correct about the need for a Loading Knowledge Module to load the data on the target?

(Choose the best answer.)

- a) Only an Integration KnowledgeModule single-technology is required.
- b) Only an Integration Knowledge Module multitechnology is required.
- c) A loading Knowledge Module multitechnology and an Integration Knowledge Module single-technology are required.
- d) Both a Loading Knowledge Module multitechnology and an Integration Knowledge Module multitechnology are required.

Answer: c

Question: 7

Which statement is correct about choosing the join order in an ODI Mapping when defining a join?

(Choose the best answer.)

- a) This option is inherited from reverse engineering.
- b) This option is always available.
- c) You can never make this choice.
- d) This option may be available only if the underlying technology supports it.

Answer: b

Question: 8

You must monitor and manage a co-located stand-alone agent, Oracle DI Agent1, by using the ODI plug-in for Enterprise Manager CloudControl.

Which is the correct command to start this agent on Linux?

(Choose the best answer.)

- a) `./agent.sh -NAME=OracleDIAgent1 -PORT=20910`
- b) `./agent.sh -NAME=OracleDIAgent1`
- c) `./startComponent.sh OracleDIAgent1`
- d) `./startComponent.sh OracleDIAgent1 -PORT=20910`

Answer: a

Question: 9

You need to create a package that automatically sends an alert to users in case the third step fails. Which option represents the steps to accomplish this?

(Choose the best answer.)

- a) Add an OdiSendMail step to My Package and link the My Third Package step to it by using a green OK arrow.
- b) Add an OdiSendMail step to My Package and link the My Third Package step to it by using a red KO arrow.
- c) Add an OdiReadMail step to My Package and link the My Third Package step to it by using a red KO arrow.
- d) Add an OdiSendMail step to My Package and link the My Last Package step to it by using a red KO arrow.

Answer: b

Question: 10

A Mapping that uses CDC does not load any source data and you want to check the SNP_CDC_SET table to find out the current window ID.

In which database schema must you look to find this table?

(Choose the best answer.)

- a) the schema hosting the Work repository
- b) the schema hosting the Work schema of the default schema defined for your source data server
- c) the schema hosting the Staging Area
- d) SYS

Answer: b

Study Guide to Crack Oracle Data Integrator Essentials 1Z0-448 Exam:

- Getting details of the 1Z0-448 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the 1Z0-448 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the Oracle provided training for 1Z0-448 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the 1Z0-448 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on 1Z0-448 practice tests is must. Continuous practice will make you an expert in all syllabus areas.

Reliable Online Practice Test for 1Z0-448 Certification

Make DBExam.com your best friend during your Oracle Data Integrator 12c Essentials exam preparation. We provide authentic practice tests for the 1Z0-448 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual 1Z0-448 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the 1Z0-448 exam.
