Answer: d

Question: 6

What do you use to provide real-time integration between Azure Sentinel and another security source?

a) Azure AD Connect
b) a Log Analytics workspace
c) Azure Information Protection
d) a connector

Answer: d

Question: 7

Which Microsoft 365 compliance feature can you use to encrypt content automatically based on specific conditions?

a) eDiscovery
b) retention policies
c) Content Search
d) sensitivity labels

Answer: d

Question: 8

Which Microsoft 365 feature can you use to restrict users from sending email messages that contain lists of customers and their associated credit card numbers?

a) retention policies
b) conditional access policies
c) data loss prevention (DLP) policies
d) information barriers

Answer: c

Question: 9

What kind of Azure Active Directory (Azure AD) identity acts as a service principal, is linked to an Azure resource, and is automatically deleted when the resource is deleted?

a) Guest user
b) System-assigned managed identity
c) User-assigned managed identify
d) Device

Answer: b

Question: 10

In the Microsoft Cloud Adoption Framework for Azure, which two phases are addressed before the Ready phase?

a) Plan
b) Manage
c) Adopt
d) Govern
e) Define Strategy

Answer: a, e

Study Guide to Crack Microsoft Security, Compliance, and Identity Fundamentals SC-900 Exam:
