- d) Security Information and Event Management (SIEM)

Answer: d

Question: 4

Which components are a part of the OCI Identity and Access Management service?

- a) Policies
- b) VCN
- c) Compute instances
- d) Regional subnets

Answer: a

Question: 5

Select the component that encompasses the overall configuration of your WAF service on OCI.

- a) Protection rules
- b) Origin
- c) Web Application Firewall policy
- d) Bot Management

Answer: c

Question: 6

As a lead Security Architect, you have tasked to restrict access to and from the worker nodes in pods running in Oracle Container Engine for Kubernetes?

- a) Security Lists
- b) Cloud Guard
- c) Vulnerability Scanning
- d) Identity and Access Management

Answer: a

Question: 7

What information do you get by using the Network Visualizer tool?

- a) Routes defined between subnets and gateways
- b) Organization of subnets and VLANs across availability domains
- c) Interconnectivity of VCNs
- d) State of subnets in a VCN

Answer: c

Question: 8

Which of the following is necessary step when creating a secret in vault?

- a) Digest Hash should be created of the secret value
- b) Vault-managed key is necessary to encrypt the secret
- c) Object Storage must be created to run secret service
- d) Shamir's secret sharing algorithm should be used to unseal the vault

Answer: b

Question: 9

Which tasks can you perform on a dedicated virtual machine host?

- a) Instance configurations
- b) Manual scaling
- c) Creating instance pools
- d) Capacity reservations

Answer: b

Question: 10

In which two ways can you improve data durability in Oracle Cloud Infrastructure Object Storage?

- a) Setup volumes in a RAID1 configuration
- b) Enable server-side encryption
- c) Enable Versioning
- d) Limit delete permissions
- e) Enable client-side encryption

Answer: a

Study Guide to Crack Oracle Cloud Infrastructure Security Professional 1Z0-1104-23 Exam:

- Getting details of the 1Z0-1104-23 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the 1Z0-1104-23 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the Oracle provided training for 1Z0-1104-23 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the 1Z0-1104-23 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on 1Z0-1104-23 practice tests is must. Continuous practice will make you an expert in all syllabus areas.

Reliable Online Practice Test for 1Z0-1104-23 Certification

Make DBExam.com your best friend during your Oracle Cloud Infrastructure 2023 Security Professional exam preparation. We provide authentic practice tests for the 1Z0-1104-23 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual 1Z0-1104-23 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the 1Z0-1104-23 exam.
