Discover More about the NS0-604 Certification

Are you interested in passing the NetApp NS0-604 exam? First discover, who benefits from the NS0-604 certification. The NS0-604 is suitable for a candidate if he wants to learn about Hybrid Cloud. Passing the NS0-604 exam earns you the NetApp Certified Hybrid Cloud Architect title.

While preparing for the NS0-604 exam, many candidates struggle to get the necessary materials. But do not worry; your struggling days are over. The NS0-604 PDF contains some of the most valuable preparation tips and the details and instant access to useful [NS0-604 study materials just at one click](#).

NetApp NS0-604 NCHC Architect Certification Details:

Exam Name	Hybrid Cloud Architect
Exam Number	NS0-604 NCHC Architect
Exam Price	\$150 USD
Duration	120 minutes
Number of Questions	60
Passing Score	80%
Recommended Training	Cloud volumes ONTAP fundamentals
Exam Registration	PEARSON VUE
Sample Questions	NetApp NS0-604 Sample Questions
Practice Exam	NetApp Certified Hybrid Cloud Architect Practice Test

NS0-604 Syllabus:

Section	Objectives
Customer Requirements	- Demonstrate customer requirements for all cloud solutions - Describe cloud cost management considerations - Describe NetApp Cloud solutions
NetApp Hybrid Cloud Solutions	- Demonstrate knowledge of the NetApp Cloud Storage portfolio - Demonstrate knowledge of the NetApp Cloud Services portfolio - Demonstrate knowledge of the NetApp Cloud Controls portfolio

Section	Objectives
Hybrid Cloud Architecture	- Demonstrate knowledge of the architectural components
Business Continuity and Data Protection	- Demonstrate knowledge of designing for availability - Demonstrate knowledge of designing for durability
Networking	- Describe networking requirements for NetApp Hybrid Cloud solutions - Demonstrate knowledge of hybrid cloud network topologies
Sizing and Scale	- Describe sizing workload characteristics for different business requirements - Demonstrate knowledge of how to scale NetApp Hybrid Cloud storage solutions
Security	- Describe how to secure NetApp Hybrid Cloud control planes - Demonstrate knowledge of security considerations for a NetApp Hybrid Cloud environment
Monitoring	- Describe how to monitor NetApp Hybrid Cloud solutions - Demonstrate knowledge of what should be monitored in a NetApp Hybrid Cloud solution

Question: 1

An administrator needs to configure StorageGRID information lifecycle management (ILM) policy rules for NetApp BlueXP tiering using FabricPool technology. The ILM durability must be flexible, allowing for additional storage nodes during quarterly scheduled StorageGRID expansion.

Which erasure coding level should the administrator use?

- a) 2+1
- b) 4+1
- c) 6+1
- d) 8+1

Answer: a

Question: 2

An administrator needs to cultivate a cloud solution for their on-premises NetApp FAS systems before the support contact expires. The new architecture must include a 3-2-1 backup strategy with data governance service. Which combination of NetApp services should the administrator use?

- a) Azure NetApp Files, BlueXP replication, and BlueXP classification
- b) Cloud Volumes Service, BlueXP backup and recovery, and BlueXP cloud ops
- c) Cloud Volumes ONTAP, BlueXP backup and recovery, and BlueXP classification
- d) Amazon FSx for NetApp ONTAP, BlueXP replication, and BlueXP cloud ops

Answer: c**Question: 3**

A customer deploys NetApp Cloud Volumes ONTAP in Azure without an outbound internet connection. NetApp AutoSupport is still updating. Which component is proxying the AutoSupport messages?

- a) Intercluster LIF
- b) HA interconnect
- c) connector
- d) gateway

Answer: c**Question: 4**

A company is using a BlueXP Rest API to create a volume on NetApp Cloud Volumes ONTAP. Which component is needed to perform this action?

- a) cluster IP
- b) connector IP
- c) interconnect IP
- d) public IP

Answer: d**Question: 5**

When deploying NetApp Cloud Volumes ONTAP, which Amazon Elastic Block Store (Amazon EBS) workload characteristic is used for sizing an application that uses small random requests?

- a) IOPS
- b) CPU
- c) MBps
- d) capacity

Answer: a

Question: 6

An administrator needs to manage access to information inside and outside of their organization. This includes making human resources (HR) documents accessible to HR staff only and sharing information with third parties for a set amount of time in the Microsoft Azure cloud platform. Which NetApp data service should the administrator use?

- a) BlueXP classification
- b) BlueXP automation catalog
- c) BlueXP operations
- d) BlueXP digital divisor

Answer: a**Question: 7**

A customer wants to scan the organization's data by using NetApp BlueXP classification. The customer wants to search by using Data Fusion. Which two databases are supported for scanning? (Choose two.)

- a) Microsoft SQL Server
- b) MariaDB
- c) Oracle Database
- d) Azure Cosmos DB

Answer: a, c**Question: 8**

A customer deploys several containerized applications on-premises and in the public cloud. The customer needs to be able to migrate, clone, backup, and recover data in an application-consistent manner. Which NetApp solution meets this customer's need?

- a) Astra Trident
- b) Astra Control
- c) SnapCenter
- d) BlueXP backup and recovery

Answer: b**Question: 9**

A customer configures NetApp Cloud Volumes ONTAP in AWS with NVMe Flash Cache for read performance acceleration. Which cloud storage service should the customer monitor?

- a) Amazon File Cache
- b) Amazon Elastic Block Store
- c) Amazon Simple Storage Service
- d) Amazon Elastic File System

Answer: b

Question: 10

Which section of NetApp BlueXP enables customers to analyze cloud compute costs to obtain insights into past, current, and future cloud costs?

- a) Health > Digital advisor
- b) Health > Remediation
- c) Governance > Digital wallet
- d) Extensions > Cloud ops

Answer: d

Avail the Study Guide to Pass NetApp NS0-604 NCHC Architect Exam:

- Find out about the NS0-604 syllabus topics. Visiting the official site offers an idea about the exam structure and other important study resources. Going through the syllabus topics help to plan the exam in an organized manner.
- Once you are done exploring the [NS0-604 syllabus](#), it is time to plan for studying and covering the syllabus topics from the core. Chalk out the best plan for yourself to cover each part of the syllabus in a hassle-free manner.
- A study schedule helps you to stay calm throughout your exam preparation. It should contain your materials and thoughts like study hours, number of topics for daily studying mentioned on it. The best bet to clear the exam is to follow your schedule rigorously.
- The candidate should not miss out on the scope to learn from the NS0-604 training. Joining the NetApp provided training for NS0-604 exam helps a candidate to strengthen his practical knowledge base from the certification.
- Learning about the probable questions and gaining knowledge regarding the exam structure helps a lot. Go through the [NS0-604 sample questions](#) and boost your knowledge
- Make yourself a pro through online practicing the syllabus topics. NS0-604 practice tests would guide you on your strengths and weaknesses regarding the syllabus topics. Through rigorous practicing, you can improve the weaker sections too. Learn well about time management during exam and become confident gradually with practice tests.

Career Benefits:

Passing the NS0-604 exam, helps a candidate to prosper highly in his career. Having the certification on the resume adds to the candidate's benefit and helps to get the best opportunities.

Here Is the Trusted Practice Test for the NS0-604 Certification

NWExam.com is here with all the necessary details regarding the NS0-604 exam. We provide authentic practice tests for the NS0-604 exam. What do you gain from these practice tests? You get to experience the real exam-like questions made by industry experts and get a scope to improve your performance in the actual exam. Rely on NWExam.com for rigorous, unlimited two-month attempts on the [NS0-604 practice tests](https://www.nwexam.com/netapp/ns0-604-netapp-hybrid-cloud-architect-nchc-architect), and gradually build your confidence. Rigorous practice made many aspirants successful and made their journey easy towards grabbing the NetApp Certified Hybrid Cloud Architect.
