

ORACLE 1Z0-1123-24

Oracle Cloud Infrastructure Migration Architect Professional
Certification Questions & Answers

Exam Summary – Syllabus – Questions

1Z0-1123-24

Oracle Cloud Infrastructure 2024 Migration Architect Certified Professional

55 Questions Exam – 65% Cut Score – Duration of 90 minutes

Table of Contents:

Know Your 1Z0-1123-24 Certification Well:	2
Oracle 1Z0-1123-24 Cloud Infrastructure Migration Architect Professional Certification Details:	2
1Z0-1123-24 Syllabus:	3
Oracle 1Z0-1123-24 Sample Questions:	4
Study Guide to Crack Oracle Cloud Infrastructure Migration Architect Professional 1Z0-1123-24 Exam:	8

Know Your 1Z0-1123-24 Certification Well:

The 1Z0-1123-24 is best suitable for candidates who want to gain knowledge in the Oracle Oracle Cloud Infrastructure. Before you start your 1Z0-1123-24 preparation you may struggle to get all the crucial Cloud Infrastructure Migration Architect Professional materials like 1Z0-1123-24 syllabus, sample questions, study guide.

But don't worry the 1Z0-1123-24 PDF is here to help you prepare in a stress free manner.

The PDF is a combination of all your queries like-

- What is in the 1Z0-1123-24 syllabus?
- How many questions are there in the 1Z0-1123-24 exam?
- Which Practice test would help me to pass the 1Z0-1123-24 exam at the first attempt?

Passing the 1Z0-1123-24 exam makes you Oracle Cloud Infrastructure 2024 Migration Architect Certified Professional. Having the Cloud Infrastructure Migration Architect Professional certification opens multiple opportunities for you. You can grab a new job, get a higher salary or simply get recognition within your current organization.

Oracle 1Z0-1123-24 Cloud Infrastructure Migration Architect Professional Certification Details:

Exam Name	Oracle Cloud Infrastructure 2024 Migration Architect Professional
Exam Code	1Z0-1123-24
Exam Price	USD \$245 (Pricing may vary by country or by localized currency)
Duration	90 minutes
Number of Questions	55
Passing Score	65%
Format	Multiple Choice Questions (MCQ)
Recommended Training	Become an Oracle Cloud Infrastructure Migration Architect Professional
Schedule Exam	Buy Oracle Training and Certification
Sample Questions	Oracle Cloud Infrastructure 2024 Migration Architect

	Certified Professional
Recommended Practice	1Z0-1123-24 Online Practice Exam

1Z0-1123-24 Syllabus:

Fundamentals of Cloud Migrations	- Explain the fundamentals of cloud migrations	10%
OCI Networking Services for Migrations	- Explain the fundamentals of OCI Networking services - Understand the OCI Connectivity options	5%
Design and Implement Migrations Using Oracle Cloud Migrations Service	- Explain the fundamentals of the Oracle Cloud Migrations service - Design and implement the discovery, inventory, planning, and assessment tasks for migration - Perform replication and execution tasks for migration	20%
Design and Implement Migrations Using Oracle Cloud VMware Solution (OCVS)	- Perform source discovery to understand infrastructure resources in an on-premises environment - Design the target OCVS environment based on migration pre-requisites - Perform migrations using Hybrid Cloud Extension	15%
Migrate Containerized Applications to OCI	- Explain the fundamentals of OCI Container Engine for Kubernetes and Oracle Cloud Infrastructure Registry - Understand the phases involved in migrating containerized workloads to OCI	10%
Migrate Infrastructure Workloads Between OCI Regions	- Understand OCI Object Storage Replication and Object Copy - Implement OCI Block Volume Replication - Implement OCI File System Replication - Design and implement OCI Full Stack Disaster Recovery Service	15%
Implement Migration Methods for Secure and Efficient Data Transfer to OCI	- Migrate data using the OCI Data Transfer service - Implement OCI Storage Gateway	10%
Migrate Oracle Databases to OCI Database Services	- Analyze and design a successful database migration plan - Explain the different methods for migrating to OCI Database Services	15%

Oracle 1Z0-1123-24 Sample Questions:

Question: 1

Which of these statements are true about physical migration?

Select TWO.

- a) Source and Target database version must be same
- b) During physical migration, copies of database objects are created in dumps
- c) You can run cloud pre-migration advisor tool to perform compatibility check prior to migration
- d) You cannot filter and migrate of database objects
- e) You cannot achieve zero or near-zero downtime with physical migration

Answer: a, d

Question: 2

You are configuring Oracle Cloud Migrations (OCM) service to discover workloads in an on-premises environment. During the setup, you created an Asset Source.

Which TWO of the following statements describe the purpose of this configuration?

- a) Asset Source is a remote virtual appliance deployed in the on-premises environment for discovery purposes.
- b) Asset Source consist of the credentials required by OCM to access and communicate with the on-premises environment.
- c) Asset Source refers to discovery schedules, defining how often the discovery is executed in order to collect regular updates to the Inventory.
- d) Asset Source is a repository in on-premises where backups of source workloads are initiated.

Answer: b, c

Question: 3

What is the data transfer capability offered by a data transfer appliance?

- a) 100-120 TB per appliance
- b) 250-280 TB per appliance
- c) 50-95 TB per appliance
- d) 50-150 TB per appliance

Answer: c

Question: 4

A Telecom company is running a multi-tier application on a set of virtual machines (VMs) in their on-premises environment. The company decided to migrate the VMs to Oracle Cloud VMware Solution (OCVS) using Hybrid Cloud Extension (HCX).

HCX was also used to extend layer 2 networks (VLANs) of the on-premises to OCVS, so that the migrated VMs could continue to use their existing IP addresses same as it was configured within on-premises. After the migration, the operator reported a performance issue connecting between VMs.

What could be the possible cause for these issues?

- a) HCX Connector appliance should be deployed on OCVS SDDC environment to enable connectivity between VMs
- b) The Network Security Groups were not updated to allow access between the VMs
- c) Mobility Optimized Networking (MON) was not configured with Hybrid Cloud Extension causing higher latency
- d) The VMs were not configured to use the HCX extended layer 2 network on the OCVS SDDC environment

Answer: c

Question: 5

When creating a Migration Plan in Oracle Cloud Migrations, strategies can be selected to determine the appropriate target asset in OCI. Which of the following best describes the strategy type?

- a) Strategies can be applied to network bandwidth and storage IOPS
- b) Strategies can be based on the geographical location for the target asset resources
- c) Strategies can be applied to resource types such as allocated CPU and memory
- d) Strategies can be based on application-level metrics such as transaction rates and response times

Answer: c

Question: 6

Where in the Oracle Cloud Infrastructure (OCI) Full Stack Disaster Recovery service can you initiate the creation of a DR Plan execution?

- a) Primary DR Protection Group
- b) None of these
- c) Both Primary and Standby DR Protection Group
- d) Standby DR Protection Group

Answer: d

Question: 7

Which of these methods simplify your migration of source pluggable databases (PDB) to the supported OCI Database Services?

(Choose two)

- a) Data Guard
- b) OCI Database Migration Service
- c) Data Pump – Full Transportable
- d) Remote Cloning

Answer: b, d

Question: 8

You are leading an initiative to migrate your company's critical applications to Oracle Cloud Infrastructure (OCI) using Oracle Cloud Migrations. As part of the configuration, you have created a Migration Project and choosing a Replication location.

What is the purpose of specifying an OCI Object Storage as the Replication location?

- a) To serve as the intermediary location where your on-premises data is securely copied as part of the migration process
- b) To store the VMware vSphere Virtual Disk Development Kit (VDDK) needed to access VM disks during migration
- c) To take backups of your VMs before initiating the migration process
- d) To collect and store replication logs generated during the migration process

Answer: a

Question: 9

As you establish replication within the Oracle Cloud Infrastructure (OCI) File Storage service, what is a critical prerequisite for the target file system?

- a) The file system must have been exported.
- b) It must reside in the same availability domain as the source file system.
- c) It must be situated in a distinct region from the source file system.
- d) The file system must not have been previously exported.

Answer: d

Question: 10

Select TWO of the migration methods supported by Enterprise Manager Migration Workbench.

- a) Data Guard
- b) RMAN Transportable Tablespace
- c) Data Pump
- d) Remote Cloning

Answer: b, c

Study Guide to Crack Oracle Cloud Infrastructure Migration Architect Professional 1Z0-1123-24 Exam:

- Getting details of the 1Z0-1123-24 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the 1Z0-1123-24 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the Oracle provided training for 1Z0-1123-24 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the 1Z0-1123-24 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on 1Z0-1123-24 practice tests is must. Continuous practice will make you an expert in all syllabus areas.

Reliable Online Practice Test for 1Z0-1123-24 Certification

Make DBExam.com your best friend during your Oracle Cloud Infrastructure 2024 Migration Architect Professional exam preparation. We provide authentic practice tests for the 1Z0-1123-24 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual 1Z0-1123-24 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the 1Z0-1123-24 exam.
