Adobe AD0-E129 Sample Questions:

Question: 1

How can you effectively leverage out-of-the-box search filters and facets to enhance content discovery and user experience?

a) By embedding custom JavaScript code in AEM pages to create dynamic search filters and facets.

b) By modifying the server's caching settings to prioritize frequently-searched content, ensuring faster retrieval times.

c) By manually editing the HTML markup of search result pages to include additional filter options and facets.

d) By using predefined metadata properties and classifications to categorize content and enable users to refine their search results.

Answer: d

Question: 2

A developer is working for ABC company on creating a new website and wants to use content fragment variations to serve different versions of content to users on different devices.

What is the recommended way to create a new content fragment variation based on an existing fragment?

a) Go to the existing content fragment and click on the "Variations" tab. Then, click on the "Create Variation" button.

b) Go to the AEM console and click on the "Assets" tab. Then, click on the "Create" button and select "Content Fragment Variation".

c) Go to the AEM console and click on the "Pages" tab. Then, click on the "Create" button and select "Content Fragment Variation".

d) Go to the AEM console and click on the "Content Fragments" tab. Then, click on the "Create" button and select "Variation".

Answer: a

Question: 3

An AEM Assets Developer has modified an out-of-the-box assets workflow and has made the changes available at runtime. Where is the new workflow design stored?

a) /var/global/settings/workflow/models/
b) /conf/global/settings/workflow/models/
c) /etc/global/workflow/models/
d) /apps/global/settings/workflow/models/

Answer: b

Question: 4

What is the benefit of using schedule-based report generation in AEM Assets?

a) It restricts report access to speific user roles.
b) It limits the number of assets included in each report.
c) It ensures that reports are generated only upon user request.
d) It allows reports to be generated automatically at predefined intervals.

Answer: d

Question: 5

In AEM, what is the purpose of sharing collections with other users?

a) Sharing collections reduces the storage space needed for assets.
b) Sharing collections provides a way to collaborate with others and allow them to access and use the assets.
c) Sharing collections improves the speed of asset loading in the AEM user interface.
d) Sharing collections ensures that assets are deleted permanently from the AEM system.

Answer: b

Question: 6

Which field types are commonly available in Metadata schemas in Adobe Experience Manager?
