While preparing for the DOL exam, many candidates struggle to get the necessary materials. But do not worry; your struggling days are over. The DOL PDF contains some of the most valuable preparation tips and the details and instant access to useful DOL study materials [just at one click](#).

DevOps Institute DOL DevOps Leader Certification Details:

Exam Name	DevOps Leader
Exam Code	DOL
Exam Fee	USD \$240
Exam Duration	60 Minutes
Number of Questions	40
Passing Score	65%
Format	Multiple Choice Questions
Books / Trainings	ONLINE LEARNING
Schedule Exam	DevOps Institute
Sample Questions	DevOps Institute DevOps Leader Exam Sample Questions and Answers
Practice Exam	DevOps Institute Certified DevOps Leader (DOL) Practice Test

DOL Syllabus:

Topic	Details
Transformational Leadership	- Project a vision, provide intellectual stimulation, inspire collaborative communication, support specific behaviors and pro-actively recognize personal behaviors.

Topic	Details
Unlearning Behaviors	- Fearlessly let go outdated information, work without bias to enthusiastically take in new information that improves effective decision-making and improve flow of work.
Models and Organization Designs	- Design the organization aligned with the vision and improve communication between cross-functional teams using concepts from Target Operating Models, Conway's Law, SAFe, and Spotify.
Becoming a DevOps Organization	- Engage early adopters in small cross-functional teams with shared goals to improve flow of their value streams using small batch sizes, tools and incremental processes.
Articulate and Socialize Vision	- Passionately champion a vision with support from top management. Relentlessly promote changes across the organization incrementally to effect changes.
Measure to Learn	- Employ value-stream mapping to visualize flow, determine metrics and current state of value-added tasks and waste to guide improvements.
Energy and Momentum	- Evangelize measurable business outcomes gained with the improved value stream while honestly contrasting prior performance.
Measure to Improve	- Use metrics and future state value stream mapping to identify improvement opportunities in People, Process and Tools.
Benefits	- Well-led DevOps teams achieve more frequent, secure, quality code deployments, faster lead time from commit to deploy, faster MTTR, lower change failure rates, and team satisfaction.

Broaden Your Knowledge with DevOps Institute DOL Sample Questions:

Question: 1

Why is tracking Mean Time to Repair (MTTR) important in DevOps?

- a) It measures how quickly teams resolve incidents and restore services
- b) It tracks the total number of security vulnerabilities reported
- c) It identifies the number of deployments completed each week
- d) It counts the number of compliance reports generated

Answer: a

Question: 2

How can leaders help teams unlearn ineffective behaviors and adopt DevOps principles?

(Select two)

- a) Delaying change adoption to maintain stability
- b) Avoiding knowledge-sharing sessions to minimize distractions
- c) Recognizing and celebrating team efforts to adopt new practices
- d) Leading by example and modeling desired behaviors

Answer: c, d

Question: 3

The practice of embedding operations, security, and development professionals in the same team is called _____.

- a) Cross-functional Collaboration
- b) Command-and-Control Management
- c) Hierarchical Leadership
- d) Centralized Support Model

Answer: a

Question: 4

A cultural practice that encourages teams to experiment, innovate, and continuously improve is known as _____.

- a) Role Isolation
- b) Psychological Safety
- c) Process Standardization
- d) Command-and-Control

Answer: b

Question: 5

Which characteristics define an effective transformational leader in DevOps?

(Select two)

- a) Inspiring a shared vision to guide team efforts
- b) Promoting a culture of psychological safety and trust
- c) Centralizing all decision-making in a single leader
- d) Limiting transparency to minimize resistance to change

Answer: a, b

Question: 6

Why is it important to involve cross-functional teams when defining a DevOps vision?

- a) It limits communication to reduce potential conflicts
- b) It restricts team participation to reduce scope creep
- c) It minimizes input to simplify decision-making
- d) It ensures diverse perspectives and aligns goals across departments

Answer: d

Question: 7

What are key leadership actions to manage resistance to change in DevOps transformations?

(Select two)

- a) Involving team members in decision-making processes
- b) Ignoring team concerns to maintain momentum
- c) Addressing team concerns through transparent communication
- d) Limiting team feedback to prevent scope creep

Answer: a, c

Question: 8

Which metrics provide insights into system reliability in a DevOps environment?

(Select two)

- a) Change Failure Rate (CFR)
- b) Mean Time to Detect (MTTD)
- c) Number of manual code reviews performed
- d) Frequency of internal team meetings

Answer: a, b

Question: 9

The ability to challenge long-standing practices and adopt new behaviors in DevOps is fostered by _____.

- a) Psychological Safety
- b) Top-down Leadership
- c) Static Collaboration
- d) Waterfall Methodology

Answer: a

Question: 10

What is the primary objective of measuring to learn in a DevOps environment?

- a) To ensure strict adherence to project timelines
- b) To minimize the use of automation tools
- c) To gain insights that drive continuous improvement
- d) To restrict feedback to team leaders only

Answer: c
