Enhance Knowledge with SMC-FD Sample Questions:

Question: 1

You created a flow that should only run when a new incident is created. However, the flow is also executing when existing incidents are updated. Which configuration should be corrected?

- a) Use a subflow instead of a main flow
- b) Add an IntegrationHub spoke
- c) Publish the flow to restrict it to inserts
- d) Change the trigger to run only on record insert

Answer: d

Question: 2

An administrator wants a flow to create a new change request every Friday at 6 PM. Which type of trigger should be used?

- a) Schedule trigger
- b) Event trigger
- c) Record trigger
- d) Script trigger

Answer: a**Question: 3**

Which two features make Flow Designer actions beneficial for automation development?

(Select 2 correct answers)

- a) They are designed to replace ACL security rules
- b) They can contain triggers that initiate independent execution
- c) They can accept inputs and return outputs to flows and subflows
- d) They allow developers to package logic into reusable building blocks

Answer: c, d**Question: 4**

What are two benefits of using subflows in Flow Designer?

(Select 2 correct answers)

- a) Allow flows to execute independently without triggers
- b) Increase reusability of automation steps
- c) Simplify maintenance by centralizing common logic
- d) Require scripting knowledge for every subflow

Answer: b, c**Question: 5**

During a ServiceNow implementation, the project team is discussing why Flow Designer should be adopted as the primary tool for automation instead of relying on the legacy workflow editor.

Which of the following features highlight Flow Designer's strengths?

(Select 2 correct answers)

- a) Provides natural language interface to design flows using simple phrases
- b) Supports version control, enabling rollback to earlier flow versions
- c) Includes Script Includes management as a built-in feature
- d) Offers reusable actions that can be shared across multiple flows

Answer: b

Question: 6

When a flow runs, the details of each step, including inputs and outputs, can be reviewed in the _____ logs.

- a) Execution
- b) Upgrade
- c) Error
- d) Validation

Answer: a

Question: 7

When testing a flow in Flow Designer, which methods are commonly used to validate whether the flow runs as expected? (Select 2 correct answers)

- a) Using the "Test" button to run the flow with sample data
- b) Reviewing execution details in the Flow Designer runtime logs
- c) Manually reviewing Script Includes for updates
- d) Checking ServiceNow upgrade history

Answer: a, b

Question: 8

While working with Flow Designer, a developer saves multiple versions of a flow during testing. Which of the following statements correctly describe how Flow Designer manages versions? (Select 2 correct answers)

- a) Each saved version is stored and can be reverted to if necessary
- b) Only one version can ever exist at a time
- c) Drafts are created for modifications until the flow is published
- d) Older versions are automatically deleted after publishing a new version

Answer: a, c

Question: 9

A customer is transitioning from the legacy workflow editor to Flow Designer. The implementation partner highlights the advantages of the new tool.

Which two benefits are unique to Flow Designer that support modern automation practices?

(Select 2 correct answers)

- a) IntegrationHub spokes that allow seamless extension to external systems
- b) Strong reliance on server-side JavaScript for every flow step
- c) Subflows that provide reusability and standardization across automations
- d) Exclusive support for synchronous execution only

Answer: a, c

Question: 10

Which two components are typically included when building a custom action in Flow Designer? (Select 2 correct answers)

- a) Triggers to start the action independently
- b) Outputs for returning results to the flow
- c) Inputs for passing data into the action
- d) Script Includes as a mandatory requirement

Answer: b, c

What Study Guide Works Best in Acing the ServiceNow SMC-FD Flow Designer Certification?

The SMC-FD study guide is a combination of some proven study tips and the combination of all valuable study materials like sample questions, syllabus and practice tests in one place.

Explore the Syllabus Topics and Learn from the Core:

If you are determined to earn success in the Flow Designer exam, getting in full touch of the [syllabus](#) is mandatory. During preparation, you might not like all syllabus sections or topics, but try to get at least the fundamental knowledge from the sections you don't like. The more you possess knowledge on all syllabus sections, the more is the chance to attempt maximum number of questions during the actual exam.

Make Your Schedule:

Studying and completing the syllabus becomes easier, if you work on the syllabus topics after making a schedule. Your syllabus must mention what areas you want to cover and within what time. Once you make a schedule and follow it regularly, syllabus completion becomes easier and preparation becomes smoother.

Get Expert Advice from the Training:

Do not forget to join the ServiceNow SMC-FD training if it is providing any. Training enhances the practical knowledge of a candidate, which helps them to work well in the practical field during projects.

Get Access to the PDF Sample Questions:

If your study material is in a [PDF format](#) or the materials are mobile-friendly, what could be better than that? Get access to the free sample questions and keep enhancing your knowledge beyond the syllabus.

Avoid Dumps and Utilize the ServiceNow SMC-FD Practice Test:

Why should you rely on practice tests? The reason is simple: you must get familiar with the exam pattern before reaching the exam hall. An aspirant aware of the exam structure and time management during the exam preparation can perform well in the actual exam and attempt the maximum number of questions during the exam.

Many aspirants prefer to read from dumps, but they miss out on the self assessment method. Therefore, SMC-FD practice tests always stand out to be the better choice than dumps PDF.

Avail the Proven SMC-FD Practice Test for Success!!!

Do you want to pass the SMC-FD exam on your first attempt? Stop worrying; we, ProcessExam.com are here to provide you the best experience during your ServiceNow Micro-Certification Flow Designer preparation.
