Fortinet FCSS_EFW_AD-7.6 Sample Questions:

Question: 1

You want to simplify a new hub-and-spoke network deployment with the BGP recommended configuration. Which two sections on FortiManager must you use? (Choose two.)

- a) Automation Stitch
- b) Meta Fields
- c) Metadata Variables
- d) Provisioning Templates

Answer: c, d

Question: 2

You want to simplify a new hub-and-spoke network deployment with the BGP recommended configuration. Which two sections on FortiManager must you use? (Choose two.)

- a) Automation Stitch
- b) Meta Fields
- c) Metadata Variables
- d) Provisioning Templates

Answer: c, d

Question: 3

In an enterprise firewall, one firewall policy is being used for intrusion prevention. Which configuration in the firewall policy must you check to confirm the optimum performance for intrusion prevention?

- a) set cp-accel-mode enable
- b) set inspection-mode proxy
- c) set offload enable
- d) set np-acceleration enable

Answer: d

Question: 4

You must automate a weekly backup of all FortiGate devices in an enterprise network. Which two steps must you take to implement this automation? (Choose two.)

- a) Integrate all FortiGate devices in a Security Fabric environment.
- b) Create a script to be run in the device database.
- c) Create metadata variables for all FortiGate devices.
- d) Create an automation stitch.

Answer: a, d

Question: 5

In an enterprise firewall, one firewall policy is being used for intrusion prevention. Which configuration in the firewall policy must you check to confirm the optimum performance for intrusion prevention?

- a) set cp-accel-mode enable
- b) set inspection-mode proxy
- c) set offload enable
- d) set np-acceleration enable

Answer: d**Question: 6**

You must ensure that users cannot access sites containing malware and spyware, while also protecting them from phishing attempts. What is the most resource-efficient method to block access to these sites?

- a) Enable antivirus profiles to scan all web traffic and block downloads from these malicious sites.
- b) Set up a DNS filter and block domains related to these categories to stop users from reaching malicious content.
- c) Configure FortiGuard web filtering and block the categories malware, spyware, and phishing to prevent access to such sites.
- d) Create a custom intrusion prevention system (IPS) policy to monitor and block all outbound traffic related to malware, spyware, and phishing sites.

Answer: c**Question: 7**

You must ensure that users cannot access sites containing malware and spyware, while also protecting them from phishing attempts. What is the most resource-efficient method to block access to these sites?

- a) Enable antivirus profiles to scan all web traffic and block downloads from these malicious sites.
- b) Set up a DNS filter and block domains related to these categories to stop users from reaching malicious content.
- c) Configure FortiGuard web filtering and block the categories malware, spyware, and phishing to prevent access to such sites.
- d) Create a custom intrusion prevention system (IPS) policy to monitor and block all outbound traffic related to malware, spyware, and phishing sites.

Answer: c

Question: 8

You configured FortiGate Session Life Support Protocol (FGSP) cluster members to encrypt the session synchronization. When you perform a sniffer trace on the interface dedicated for synchronization, the sniffer trace shows UDP packets only.

What are two reasons why the sniffer trace captures only UDP packets?

(Choose two.)

- a) The administration has not configured the SESSYNC_1 tunnel.
- b) The psksecret value does not match.
- c) encryption is not set to enable on both members.
- d) The encryption is encapsulated in UDP packets.

Answer: a, c

Question: 9

How does FortiManager handle FortiGuard requests from FortiGate devices, when it is configured as a local FDS?

- a) FortiManager can download and maintain local copies of FortiGuard databases.
- b) FortiManager supports only FortiGuard push to managed devices.
- c) FortiManager will respond to update requests only if they originate from a managed device.
- d) FortiManager does not support rating requests.

Answer: a

Question: 10

Which two ways will applications be impacted when you adjust the TCP maximum segment size (MSS) on FortiGate?

(Choose two.)

- a) The MSS configuration is prone to errors because it requires a thorough understanding of the network path.
- b) The overall data throughput is decreased when the MSS value is decreased.
- c) The network efficiency improves when there is a decrease in the MSS value.
- d) The packet count increases adding unnecessary TCP headers when the MSS value is increased.

Answer: a, b

Study Guide to Crack Fortinet Enterprise Firewall Administrator FCSS_EFW_AD-7.6 Exam:

- Getting details of the FCSS_EFW_AD-7.6 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the FCSS_EFW_AD-7.6 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the Fortinet provided training for FCSS_EFW_AD-7.6 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the FCSS_EFW_AD-7.6 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on FCSS_EFW_AD-7.6 practice tests is must. Continuous practice will make you an expert in all syllabus areas.

Reliable Online Practice Test for FCSS_EFW_AD-7.6 Certification

Make NWExam.com your best friend during your Fortinet NSE 7 - Enterprise Firewall 7.6 Administrator exam preparation. We provide authentic practice tests for the FCSS_EFW_AD-7.6 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual FCSS_EFW_AD-7.6 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the FCSS_EFW_AD-7.6 exam.
